The LUX710 profile is designed to meet the daily needs of linear accent lighting. The LUX710 profile offers a wide selection of lenses, light outputs, and color options to produce a uniform linear light housed within a channel of extruded aluminum. This compact profile is surface mounted into coves, behind floating walls and ceilings, under cabinets, and in many other indirect applications.

PRODUCT FEATURES

Made of ALCOA 6063-T5 aluminum alloy increasing heat dissipation

Surface mounted with the use of stainless steel clips

Designed to give a uniform light without hot spots with certain strips and opaline or prime lens

Suitable for dry, damp or wet indoor locations

Designed to meet North American woodworking standards

Conforms to UL STD. 2108 - Suitable for installation for storage area of clothes closet
